ADOPT a FENCE

Twenty years, or so ago, a chain link fence was installed around the baseball area at the Malabar Community Park. Unfortunately time has been at work and the fence reached the end of its' service life. Recently the top rail rusted through and a number of sharp ends were protruding into the walk / play area presenting an extreme safety hazard to our kids at play (adults too).

Public Works has removed this fence and we have ordered a new one to be installed. The cost of this renovation is \$5,200.00 for 600 feet of fencing.

For the Town this was an unplanned expense.

You could be a sponsor.

For a mere \$90.00 you too could sponsor an eight foot section of chain linked fence and have your family name, or maybe put your children's name on the plaque for the ball park they grew up on, or your business name posted on a plaque showing your support to the town you live in.

Any amount would be greatly appreciated, as a support to your community and to the great Town of Malabar!

Hurry, send a check while there is one of the ⁷⁵ openings still available.

Doug
