

Dear Malabar Residents-

10/10/16

We hope everyone has weathered “Hurricane Matthew” safely, and now it is time for cleanup. Our Public Works crew is working aggressively to keep water drainage flowing.

This Notice explains the Yard Waste Debris that will be picked-up throughout our Town.

Through an Inter-local Agreement that the Town of Malabar has with Brevard County a Third Party Contractor will be picking up the yard storm debris. Your yard debris must be piled alongside the road in the right of way and please not in the ditches. The contractors cannot go on private property.

Brevard County Anticipates that two “passes” through Malabar for pick-up, the first “pass” starting this week. The second “pass” will be made 1-3 weeks later giving individuals time to move leaves, limbs, and palm fronds out of yards onto the right of way.

Thank you,

Doug Hoyt

Doug Hoyt, Town Administrator
