UPDATE ON WASTE MANAGEMENT BREVARD COUNTY HURRICANE SERVICE 10/11/2016

Good Afternoon, everyone:

Please be advised that multiple routes countywide are running very late due to extremely heavy volume, including a nearly 100% set-out rate for containerized yard waste. Residents understandably want their refuse gone as quickly as possible and, as a result, thousands of residences have multiple container curbside for garbage, recycling, and, especially, yard waste collection. Please be assured that we have all available resources and collection personnel on the ground for the maximum hours allowed contractually or by law to collect everything curbside. However, the dramatically increased volume is requiring additional landfill trips, which impacts the speed of our operation.

Routes that do not finish each workday will be first priority the next morning, and several at this stage are continuing into the afternoon. We are asking residents to keep their containers curbside, as we are continuing routes in sequence, and asking for understanding from our HOAs. We thank you for your patience and understanding as we continue to work through our area's continued state of emergency.

Thank from Waste Management.
