The Town does not provide this service.
In compliance with the Americans With Disabilities Act (ADA), anyone who needs a special accommodation for this meeting should contact the Town's ADA Coordinator at 321-727-7764 at least 48 hours in advance of this meeting.

TOWN OF MALABAR
PARK AND RECREATION
AGENDA ITEM REPORT

AGENDA ITEM NO: 1
Meeting Date: September 16, 2015

Prepared By: Cynthia Kelley, Secretary to Board

SUBJECT: Approval Park Board Minutes

BACKGROUND/HISTORY:

Attached are the summary minutes for the following 08/20/15

ATTACHMENTS:

- Draft Minutes from Park and Recreation regular meeting August 20, 2015

ACTION OPTIONS:

Recording Secretary requests approval of the minutes

The following draft minutes are subject to changes and/or revisions by the Park Board and shall not be considered the official minutes until approved by the Park Board.

**TOWN OF MALABAR – PARKS AND RECREATION ADVISORY BOARD
08/20/15 MEETING MINUTES**

This meeting of the Malabar Town Council was held at Town Hall at 2725 Malabar Road. It was called to order by Chair Hans Kemmler at 7:30 pm. Prayer and pledge was led by Chair Hans Kemmler.

A. CALL TO ORDER, PRAYER AND PLEDGE

B. ROLL CALL

Chair Hans Kemmler
Vickie Thomas, Vice Chair
Patricia Foster
Helena Ausley
Board Secretary Cynthia Kelley

Also present is Tom Taylor, he goes before Council Monday, 8/24/15, to be appointed to the Park Board.

C. ADDITIONS/DELETIONS/CHANGES:

D. PRESENTATIONS: None

E. CONSENT AGENDA

1. **Approval of Minutes**
Regular Park and Recreation Meeting – 06/17/15
Exhibit: Agenda Report No.1
Recommendation: Motion to approve

Discussion: Kemmler stated he reviewed the minutes and found no corrections.

MOTION: Foster/Thomas moved to approve the minutes of June 17, 2015 as presented.

VOTE: All Ayes.

F. PUBLIC:

G. ACTION:

H. DISCUSSION:

2. **Shade Structure Discussion**
Exhibit: Agenda Report No. 2
Recommendation: Discussion and Recommendation

Discussion: Kemmler provided information regarding companies for the shade structure for the playground equipment. Playmore Playground Equipment wants \$35,000 for a new shade structure. This is way out of the budget for the 15/16 FY. Thomas asked if a loop could be put on the structure and help put it back on the equipment. Kelley explained that with all the repairs, the shade structure has been shortened and cannot be stretched to go over the equipment; it continues to rip. Staff is in the process of getting quotes for a shade structure sail that will be in four pieces. Kemmler stated that he provided information with stainless steel hardware to be used when attaching the sails to the playground equipment. We need to make sure we use these as it will last for a very long period of time. These sails will allow the air to flow through without causing ripping or tearing of the fabric used. Kelley stated that Denine Sherear is in the process of getting quotes from other companies; when she has the information, it will be given to Debby

Franklin. It may also need to go to Council to decide which quote to use. Kemmler stated that he would like the quotes to be brought to the Park Board for review as they have had experience with the structure and know what they are looking for to replace it with. Kelley stated that she believes one quote came in at around \$6500 but she isn't sure of the exact quoted amount. Kemmler would like the Board to review the quotes and make a recommendation to Council.

At this time, no action was needed by the Park Board.

3. Maintenance of Playground – Inspection and Maintenance if Needed

Exhibit: Agenda Report No. 3

Recommendation: Discussion and Recommendation

Discussion: Kemmler stated that he asked this to be put on the agenda for discussion; it is time to look at the equipment and see what needs to be done for the maintenance to it. Thomas stated that she has the paint that was left from the last maintenance work day. We need to wait until the rainy season is done; we, the Board, has had a work day in the past to take care of this when it is not raining. It is general consensus of the Board to wait until the dry season to address this issue.

At this time, no action was needed by the Park Board.

I. OLD/NEW BUSINESS:

New Business:

Helena Ausley stated that she will be resigning as of this evening. She is having issues with being able to hear and feels that she needs to step down from the Board at this time. The Board thanked her for her time and efforts while serving the Town.

Old Business:

Thomas stated that the Board had asked about the oyster gardening and mats. Kemmler stated that he had looked into this and the water quality of the Indian River Lagoon. He stated that the water quality is being monitored and there isn't any need for assistance from anyone at this time. Thomas stated that they are looking for volunteers to make the oyster mats if anyone is interested in this.

J. BOARD MEMBER/STAFF REPORTS:

• Cameron Preserve – Thomas

Thomas reported that she hasn't been able to walk lately due to all the water. She and her husband, David, have noticed that there are still a lot of motorized vehicles using the trails. The kiosk looks really good; they have been picking up the trash along the trails when they are out there. She stated that there is a lot more traffic on the trails as well. She hasn't been out there for the last two months. Once it clears up, she will be able to give a report on the trees. Cameron Preserve is doing just fine.

Kemmler stated that his is the liaison for the T&G Committee and the Park Board; he stated that the T&G Committee was working on getting some donated trees to be placed at the Cameron Preserve at the picnic area for shade. However, as of now, this has fallen through. The Board many want to look at getting some trees out there in that area for shade. The HOA of Country Cove stated that the T&G Committee members would be able to use their water to care for the

trees until they take root. Kemmler also advised the Board that the committee is working on getting the trails to be one way to keep from having accidents with bikers running into the pedestrians using the trails. They are working with the EELs program to coordinate the colors of the trails for the signage to be put out. He will keep the Board up to date on this as it develops.

- **Disc Golf Park – Kemmler**

Kemmler reported that things are going well out there. There are a few wet spots, but if it remains dry for a few days, the water is taken care of. They are able to play at least twice a week at this time. All the signs are up; they mow out there about once a month. Nothing needs to be done at this park at this time.

- **Thomas Eschenberg Memorial Park - Kemmler**

Kemmler reported that he hasn't been out there for a while. Foster stated that it is very crowded on Tuesdays with the cyclists. Kemmler stated that he petitioned to have more land cleared for parking but there wasn't money in the budget for that. Kemmler stated that this will be a long term project and will need some muscle. There is going to have to be something put down to make it passable. Thomas stated that it should be a boardwalk as it won't impede anything out there. This is something that the Park Board is continually discussing to come up with ideas for this park.

- **Fern Creek Crossing Park – Ausley**

Foster reported that it is still getting used a lot; needs to be mowed now. Thomas stated that she sees people taking photographs over there. Foster thought of having a little bench there; it reminds her of another park that has a "cupboard" with books in it for those who would like to sit and read. This is an idea for this park.

- **Huggins Park – CLOSED**

Kemmler gave Taylor information regarding the park; it has been closed for some time. The playground equipment that was out there has been removed and donated to the Malabar Baptist Church. He stated that this park is clay for the Board to mold; there has been discussion for ideas with bocce ball and shuffle board; at one time, it was discussed to have a community center built out there with grant funds. Kemmler asked that Thomas go and look at the park and see if he has any ideas to bring to the Board as to what to do with it.

Taylor stated that his interest is with the Thomas M. Eschenberg Memorial Park. Thomas stated that it has to stay as a passive park; no playground equipment. Kemmler stated that it can be used for camping, it can have a disc golf park on it, hiking, etc. Taylor asked if it could be cleaned up. Kemmler stated that it can be; we, the Board, have asked for the prisoners to help clear out the invasive Brazilian Pepper trees but it hasn't happened as of yet.

Thomas stated that she didn't know Mr. Taylor very well; she asked what he would be bringing to the Board. He stated that he has managed and knows how to get things done. He gave a little background of what he does as a sub-contractor for some of the areas businesses and local medical buildings. Kelley advised the Board that he is very involved with Springfest and has taken charge of the hay rides and giving people rides back and forth to their vehicles during the day of the event. She stated that he is key to the Springfest Committee.

• **Malabar Community Park – Foster**

Foster reported that it is freshly mowed; there are always people out there. Thomas asked about the bathrooms; Foster stated they are doing well. The yellow cushions around the ball field fence are coming up. As you come in the back, there is a camera there. Foster asked what it is for. Kelley stated that is part of the security system that lets us know if anything is going on in the park that shouldn't be. Kemmler stated that it is manned at the Fire Department; he was key in having the system put in. Foster asked who should be contacted while we have no TA. Kelley stated that Franklin should be contacted. Kemmler asked how long it will take for a new TA; Kelley stated at least one to two months. Foster stated that the map in the kiosk is out dated. Kemmler stated he will check the size of the map and get this addressed.

Kemmler gave a brief report on the ADA restroom for the Sand Hill Trail Head. We now have to dig a new well; it is in the works. Kelley reported that Advanced Plumbing had been contacted and they picked up the drawing yesterday to provide a quote. Once we have it, Kelley will let the Board know. Kemmler stated that the town engineer will be in tomorrow and he will be meeting with Murray Hann to get an update on the well and what needs to be done to get this project completed. Kelley stated that Heidi Krueger was one of the companies contacted for drilling the new well.

K. ADJOURNMENT

There being no further discussion, general consensus. **MOTION: Foster/Thomas to adjourn the meeting. VOTE: All Ayes.** This meeting adjourned at 8:09 pm.

AGENDA ITEM REPORT

AGENDA ITEM NO: 2
Meeting Date: September 16, 2015

Prepared By: Cynthia Kelley, Secretary to Board

SUBJECT: Shade Structure for Playground Equipment

BACKGROUND/HISTORY:

Chair Kemmler asked that this be on the agenda for discussion. Staff has been working on getting quotes for a new shade structure for the playground equipment at the Malabar Community Park.

ATTACHMENTS:

- Memo dated 9/10/15 from Debby Franklin, Town Clerk
- Email dated 9/9/15 from Denine Sherear; Quotes attached
- Email dated 9/9/15 from Anne Kennedy, Playmore; Warranty attached
- Email dated 9/9/15 from Hans Kemmler showing responses from Denine Sherear

ACTION OPTIONS:

Discussion of shade structure

TOWN OF MALABAR

MEMORANDUM

Date: September 11, 2015 2015-TC/T-044

To: Members of Parks and Recreation Board
Cindi Kelley, Board Secretary

From: Debby K. Franklin, Town Clerk/Treasurer

Ref: Update on shade for playground

Denine has been getting quotes from vendors on the cost of a replacement cover. Before we place an order with anyone we are going to try and fit the existing cover. We just got it back yesterday and PW will try and put it up next week. If it fits then the problem of buying a new one is postponed.

The budget approved by Council is 40K less than last years. There is only 2K budgeted for capital outlay. So if we have to buy a replacement, we will first have to get Council to approve a budget amendment.

Hans,

Please see attached the quotes I received for the sunshade replacement @ Malabar Community Park. I also called the company (this morning) that is repairing the existing sunshade and they told me it is ready to be picked up, so our public works will be picking it up this week.

Thank you

Subject: Sail Shade Structure for Malabar Community Park
Attachments: QUO0076777 CITY OF MALABAR DWG.PDF; Est. 26355.pdf; Est. 26356.pdf

Hi Denine.

Hope you are doing well on this Monday afternoon.

Please find the following as the options for the replacement of the shade at the Malabar Community Park:

1. Superior Recreation Products can replace the shade component only and use the existing structure. Unfortunately, the shade cover itself cannot be warranted since the main structure was not built by Superior. With this said, my recommendation is to continue to use the current shade company and rely on their warranty or utilize option two.
2. I have created two estimates on a new shade structure. The shade will have a "sail" type covering. I have included a drawing of the structure itself. The first estimate is for Korkat to remove the existing metal structure and install the new shade. The second estimate is for the city to remove the existing structure and Korkat to install the existing shade.

Option two will give you a 10 year warranty on the shade itself. This is the style which Mr. Dick Korn had saw at the League of Cities Trade show and wanted to see if it could be an option for the playground area.

Please let me know if you have any further questions.

Thank you again for your time and efforts on this potential project.

Best in Health,

Bruce

Subject: All new shade with new posts and frame quote you requested
Attachments: Malabar Comm Pk NEW Shade 9526.pdf

Importance: High

Denine,
Here is the new SHADE quote you requested.
Please let me know if you have any questions.
This quote does include the "removal and disposal" of the shade, posts, framing and concrete in the footing holes.
All of that will be hauled away to the landfill and disposed of.
Let me know the decision either way. Would you know anything by next week?
Thanks. Anne

QUOTATION

08/17/2015

Job Number: 9526
Revision:

Job: Replacement Shade
1850 Malabar Road
Malabar FL 32950

General Terms:

Acceptance by a signature, purchase order, or contract based on this proposal indicates that you are in full agreement with all terms and conditions of this proposal, including the following:

- Prices are valid for 30 days, unless otherwise noted. After 30 days, prices are subject to change without notice.
- Sales Tax will be charged unless a valid Sales Tax Exemption Certificate is presented with order.
- Specify all colors and options in writing. Any discrepancies that arise due to oral selections will be the responsibility of the customer.
- If the customer is installing equipment, all equipment is to be installed per manufacturer's instructions and applicable guidelines.
- Installation, site work, permits, engineering, etc. are not included unless noted.

Building Permits:

Building permits are the responsibility of the owner. If a building permit is required for your project, the following options are available.

- Add 5% (minimum \$1,500) to the quotation/contract price. Playmore Recreational Products and Services will cover the costs of all the building permit fees and expeditor fees.
- Playmore Recreational Products and Services can assist the customer in obtaining their own permit. Customer is responsible for all fees directly to the permitting agency and/or the expediting company.

NOTE – All zoning, planning, environmental, etc. permits and approvals are the responsibility of others as well as any required site plans. If signed and sealed engineered drawings are needed for the installation of equipment, this will be included on the proposal. If it is omitted and later discovered necessary, the cost will be the responsibility of the customer.

Standard Services Include:

- Shipping Notification/Receiving Instructions
- Pre-Installation On-Site Meeting
- Underground Utility Check (Sunshine State One Call)
- Accept Delivery and Unload Equipment (If site is ready.)
- Moving New Equipment at Job Site
- Layout of Equipment
- Installation of Equipment and Materials per Manufacturer's Instructions
- Trash Clean Up (Leave on site.)
- Post-Installation Walk Through
- Maintenance Explanation

Customer Responsibilities (unless otherwise noted in the applicable quotation/contract):

- Trash Disposal – Dumpsters or Off Site Disposal.
- Accept Delivery and Unload Equipment (If site is not ready.). \$500.00 Charge will apply if Customer wants Installers to Unload.
- Provide Area for Storage and Staging.
- Secure Site and Equipment.

Some Optional Responsibilities (Must be clearly outlined in the applicable quotation/contract):

- Removal of Existing Equipment.
- Site Preparation, Grading, Drainage Systems, etc.
- Engineered Drawings for Purchased Equipment.
- Other Permits or Engineered Drawings (i.e. zoning permits, environmental permits, site surveys, etc.)

*Any other responsibilities must be clearly outlined in the applicable quotation/contract.

General Notes

Access/Utilities. Access must be provided to the installation area for heavy trucks and equipment. Access of equipment and personnel is the obligation of the customer to provide until the project is fully completed. We will take every precaution to avoid damage, however any damage caused by the normal installation of our product, such as to sod, concrete sidewalks, private underground utilities, etc., will be the responsibility of the customer, as will any additional costs associated with limiting damage, such as providing plywood over sod for access. If access is not reasonably close to the jobsite, any additional costs incurred due to having to transport materials and/or supplies will be the responsibility of the customer.

Rock/Foreign Object Clause. Most installations require digging of holes and footing equipment in concrete below finished grade. Removal of existing ground covers such as asphalt, concrete, tan bark, sand, pea gravel, wood fiber, rubber matting, poured-in-place rubber surfacing, or any other material that interferes or delays the digging of holes, is the responsibility of others, unless otherwise noted. If excessive underground obstructions such as rocks, coral, asphalt, concrete, pipes, drainage systems, root systems, water, or any other unknown obstructions are discovered, charges will be added to the original proposal.

Playground Surfacing. All playground equipment is to be installed over safety surfacing per CPSC guidelines and ASTM standards. If the customer contracts for something contrary to the guidelines, they are accepting all responsibility for any liability and future litigation that may arise.

Subject: All new shade with new posts and frame quote you requested
Importance: High

Denine,
Here is the new SHADE quote you requested.
Please let me know if you have any questions.
This quote does include the "removal and disposal" of the shade, posts, framing and concrete in the footing holes. All of that will be hauled away to the landfill and disposed of.
Let me know the decision either way. Would you know anything by next week?
Thanks. Anne

LIMITED WARRANTY
Effective 12/1/10

Shade Systems, Inc. warrants that the equipment sold will conform in kind and quality to the specifications listed in the Order Acknowledgment and will be free of defects in workmanship or materials. Shade Systems further warrants:

- LIMITED 20 YEAR WARRANTY on all upright posts and support structure frames against failure due to rust-through corrosion. This warranty excludes any cosmetic issues.
- LIMITED 10 YEAR WARRANTY on all CoolNet™ fabrics, threads, and cables against degradation, cracking or material breakdown resulting from ultra-violet exposure, mold, and mildew, as well as on Turn-N-Slide™ fastening device. This warranty excludes fading or failure of fabric due to chemical erosion or flying or falling objects.
- LIMITED 3 YEAR WARRANTY on all WeatherNet™ fabrics and threads against degradation, cracking or material breakdown resulting from ultra-violet exposure, mold, and mildew. This warranty excludes fading or failure of fabric due to chemical erosion or flying or falling objects.
- LIMITED 1 YEAR WARRANTY for structural failure of moving parts, powder-coated finish, or any other product or part not covered by one of the above warranties.

All above warranties commence on the date of the Seller's invoice.

Should any failure to conform to the above express warranties appear within the applicable warranty period, Seller shall, upon being notified in writing promptly after discovery of the defect and within the applicable warranty period, correct such non-conformity at the sole option of the Seller either by repairing any defective part or parts, or by making available a replacement part within 60 days of written notification. Seller shall deliver the repaired or replacement part or parts to the site free of charge, but will not be responsible for providing labor or the cost of labor for the removal of the defective part or parts, transportation or its associated costs to return to Seller's factory parts to be replaced or repaired, or the installation of any replacement part or parts. Replacement parts will be warranted for remainder of original warranty.

This Warranty is exclusive and in lieu of all other warranties, whether express or implied, including but not limited to any warranty of merchantability or of fitness for a particular purpose. The remedies hereby provided shall be the exclusive and sole remedies of the purchaser. Seller shall not be liable for any direct, indirect, special, incidental or consequential damages.

Seller neither assumes nor authorizes any employee, representative or any other person to assume for Seller any other liability in connection with the sale or use of the structures sold, and there are no oral agreements or warranties collateral to or affecting the agreement.

The warranty stated above is valid only if the structures are erected in conformity with the layout plan and/or installation instructions furnished by the Seller; have been maintained and inspected in accordance with the Seller's instructions and other normal and prudent practices; have been subjected to normal use for the purpose for which the goods were designed; have not been subjected to misuse, negligence, vandalism, or accident; have not been subjected to additional or substitution of parts; and have not been modified, altered, or repaired by persons other than the Seller's designees in any respect which, in the judgment of Seller, affects the condition or operation of structures.

To make a claim, send your written statement of claim, along with the original invoice number to:
Shade Systems, Inc. • 4150 S.W. 19 Street • Ocala, FL 34474

CARE AND MAINTENANCE INSTRUCTIONS

Shade Systems designs its products to last years and require very little maintenance. However, certain guidelines are suggested below to get the maximum life out of your new Shade Systems product:

How Do You Clean the CoolNet™ Shade Fabric?

Because the CoolNet™ shade fabric is manufactured from High Density Polyethylene, or HDPE, it is naturally very resistant to dirt, mildew and does not retain moisture.

However, as it is exposed to dust and moisture over time, the shade fabric may become dirty and appear grey. Periodic cleaning will help stop the build-up of dirt particles. The CoolNet™ shade fabric can be cleaned with a weak concentration of non-abrasive pH neutral detergent in warm water with a maximum temperature of 120 degrees. The detergent must not contain any acidic chemicals or solvents as they can weaken the fabric's resistance to UV radiation. Apply using a long soft bristled mop or brush and rinse with a strong flow of clean water.

To do a thorough job of cleaning, remove the fabric canopy (it's easy with our Turn-N-Slide™ system!) and lay it out on a clean, flat surface. Wash with a hose – do not use a pressure washer. Review the Turn-N-Slide instructions for proper removal procedure if you have a Shade Systems frame-supported system. If you have a Sail system, consult the instructions which came with your product, or call Shade Systems at 1-800-609-6066.

There are many different fabric cleaning solutions available, so it is important to check the ingredients of the cleaning solution to make sure it does not contain any halogens such as chlorine, bromine, iodine, etc., or strong alkaline chemicals and acids. If you are still unsure, ask the manufacturer of the solution to provide a Material Safety Data Sheet (MSDS). This will detail all the ingredients of the cleaning solution, and will tell you what solvents, acids or alkaline chemicals are present.

Canopy removal

Unless stated otherwise in your order documents, Shade Systems products are engineered for maximum 90-mph wind loads (with the canopy attached) and zero live loads. Therefore, in the event of inclement weather, it is recommended you remove the canopy and store safely. Likewise, it is recommended you remove and store your canopy for the winter season if snowfall is expected.

Maintenance of Metal Frames and Components

Shade Systems metal components come with an electrostatically-applied powder-coat finish for durability and color-fastness. In certain higher humidity environments, surface rust may develop on metal components after a period of time. While this does not necessarily indicate a structural deterioration of the component, a touch up paint may be applied for aesthetic reasons. Shade Systems has available spray touch up paints for all its standard colors at a nominal cost.

Maintenance of Turn-N-Slide™ easy fastening mechanism

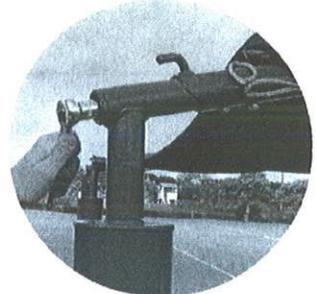

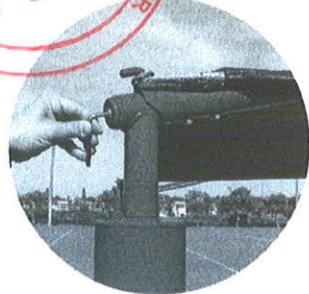

Ensure with visual inspections that the Turn-N-Slides (or Sail brackets in the case of a Sail system) on your structure are thoroughly tightened and that there is no slack in the fabric canopy, as a loose canopy will not resist the same wind loads as a tight one.

Why choose Shade Systems™ ?

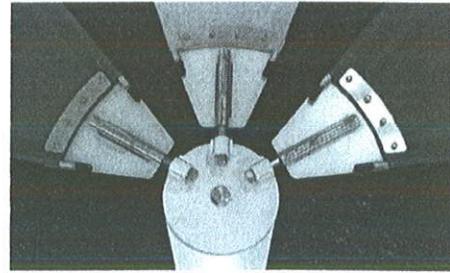

✓ Turn-N-Slide™ Easy Fastening System

- Makes it easy to remove and re-attach the fabric canopy for the winter season or in case of severe storm such as hurricanes (most other shade companies' products are permanent and require professional installers to remove and re-install the canopy).
- Only patented and time-tested system of its kind – in continuous use nationwide since 2003
- See our demonstration video at:
<http://www.shadesystemsinc.com/turn-n-slide-video.htm>

✓ One-Point 'Sail' Attachment System

- No need to thread messy cables - each corner of the Sail fabric canopy features a stainless steel bracket with just one tensioning bolt to easily attach or remove the canopy. Cables are permanently concealed in the hems and terminate in the stainless steel bracket - you never have to touch them!

✓ Extensive use of stainless steel for maximum corrosion resistance

- All stainless steel hardware
- All stainless steel cables

✓ 100% U.S. made - All under one roof in our Florida factory!

- Watch our 5-minute Factory Tour video:
<http://www.shadesystemsinc.com/factory-tour-video.htm>

✓ Most comprehensive warranties in the industry

- 20** yrs on metal frames against rust-through corrosion
- 10** yrs on CoolNet™ shade fabric against deterioration
- 10** yrs on CoolNet™ stitching thread against deterioration
- 10** yrs on Turn-N-Slide™ Easy Fastening System

(And none of the above warranties are pro-rated!)

✓ Fire Rated

- CoolNet™ Shade Fabric is treated with fire retardants, and passes the requirements established under the NFPA 701 Test Method 2 test standards for flammability, including the accelerated water leaching protocol. Ask for a copy of the test results.

✓ Maximum U.V. protection

- Up to 99% U.V. screening protects against sun overexposure
- Reduces temperatures by up to 15-20 degrees
- Extends the life of playground equipment and other property underneath

Sent: Wednesday, September 09, 2015 3:30 PM
To: Denine Sherear
Cc: Cindi Kelley
Subject: RE: Malabar Sunshade Quotes & Specs

OK Good.

So that means there is a ten-year warranty on the cover.

I think we should get at least two more estimates from companies that will answer our request with what we asked for: a quote on the fabric cover only.

Please send the current system specifications and request for cover replacement (only) to:

Creative shade solutions 727-947-3067
Custom Shade Sails 314-576-9740
ShadeSails.com LLC shadesails.com

Tell these customers that we would accept an estimate for 4 sails, one for each "pie" section in the frame, and that we are willing to install attachment points and measure the dimensions for each sail. I think these will last longer and be easier to install if we have them made with D rings and turn buckles. Some of these companies make the sails' edges with seat-belt material around stainless cable, and they last. Each section would weigh less and be easier (lighter) to install.

Hans,
This is the response from Playmore:

Coolnet Fabric. Weathernet is no longer available and is waterproof.
The Coolnet allows a "mist" of water to come thru the fabric when it rains hard.

Thanks,
Denine
